

A JAUNTY HAT

This hat was knitted/crocheted just for you by a member of The Jaunty Hat Guild. It is the goal of this group to provide a hat that will lift your spirits during a time when you are temporarily without hair. Some of us have experienced this and some have not. However, we have all experienced times of crisis in our lives and our desire is to enhance your healing. We believe that attitude plays a huge part in that. Attitude, attitude, attitude! The scientific world has begun to recognize that a positive attitude releases good chemicals in our body which aid in our ability to be well. You are a witness to the world you walk through about having cancer. You can be an encourager to others or you can walk with defeat. The choice is yours.

It is our hope that you will benefit from wearing this hat and then, after your crisis is over, perhaps you will continue to enjoy wearing the hat and allowing it to remind you of what a miracle you are. Or you may choose to share this hat with someone else who needs it and, if that is the case, we hope that you will share your story of healing with them.
